City Cleark:

Please add this letter from the easy reader and the contents of this email to the next council agenda under "written correspondence"

Hello public:

I am writing this email as a resident and not the Co-founder or the Advocates of Hermosa Beach. I would like to bring to your attention this important letter from a local paper.

This letter appeared in the October 26th, 2023 addition of the Easy Reader under "letters to the editor." This letter represents the feelings of everybody I know, and you all know I know everybody.

Kent Allen

A Hermosa Beach Resident and 12-year Planning Commissioner

A Resident since 1978

A Homeowner

A Husband & Father of 2

A Graduate of the HB Police Acadamy

A Civil Engineer

A Person Who Was Fooled by Justin Massey (just Like Hany Fangary).

## **Flatlanders**

Dear ER:

I finally figured out what's wrong with the Hermosa Councilmembers Ray Jackson and Justin Massey. They are not Beach People, and simply do not understand our mentality. They are trying to transform our beautiful beach town into a government gulag. They created a problem with the parking pass system. When the residents point out problems, they simply respond that "change is hard," and barrel ahead. I live in Hermosa in the high-impact area and have a business here. My cars are registered to the business; therefore Massey says I cannot have parking passes. Jackson goes a step further when he suggests implementing "restricted parking zones" so we don't just park anywhere in the impacted area. At the same time, they are pulling a "Hany" on Councilmember Dean Francois, trying to minimize his contributions by painting him as inexperienced, which he is not. It seems we have our own axis of evil in Hermosa with Massey, Jackson, and City Manager Suja Lowenthal. They are not responsive to our concerns. At least, Francois has a heart. Who do these characters represent? Certainly not the beach locals.

Mike Guild  
Hermosa Beach
