17.16.020 Height

Intent and Purpose. The intent and purpose of this section is to set a standard height limit for most projects in scale with existing development and to minimize view obstruction. However, to recognize that pre-existing development in some neighborhoods and/or clusters of lots are already predominately built higher than the height limit, this section also allows some projects to exceed the height limit to enable property owners to enjoy the same rights to view, sunlight and air enjoyed by those property owners with the higher buildings. This section further sets forth the conditions and design criteria for determining whether a project is allowed to exceed the height limit.

- A. No building shall exceed thirty (30) feet in height unless in compliance with subsections (B), ~~and (C)~~, or (D) of this section. Refer to Chapter 17.22 for additional height requirements for condominium projects located adjacent to walk streets.
- B. The planning commission shall hold a public hearing and may grant or conditionally grant an exception to allow a multiple- or single-family building to exceed thirty (30) feet in height up to a maximum of thirty-five (35) feet in height when all of the following conditions are met to the satisfaction of the planning commission (subject to appeal to the city council pursuant to Section 17.58.040):
 1. An extension above the height limit is necessary to take advantage of a scenic view over surrounding structures which are already constructed above thirty (30) feet in height. Said structures already in excess of thirty (30) feet would otherwise significantly obstruct the proposed project's view potential;
 2. The proposed development is located between, and adjacent to, two (2) or more contiguous lots with buildings constructed in excess of the thirty (30) foot height limit;
 3. The structural extension above thirty (30) feet will not adversely impact the available views, and access to sunlight and air of adjacent and surrounding properties;
 4. If all the above conditions are satisfied, the following design features of the portion of the building above thirty (30) feet shall also be considered by the planning commission to determine if an exception should be granted:
 - a. The style and pitch of the roof,
 - b. The mass and bulk of the proposed structure above thirty (30) feet (in order to minimize bulk of the upper floor),
 - c. The architectural appearance, as exhibited by the type, style, and shape of the structure and the proposed exterior materials.
- C. Application and public hearing requirements for processing exceptions to the height limit shall be in accordance with procedures established by the city council. Applicants for exceptions shall provide detailed topographical surveys and spot elevations of

existing buildings for determining if existing building on adjacent lots exceed thirty (30) feet.

- D. Projects utilizing criteria under Section 17.42.100 – Affordable housing density bonus and incentive program – may exceed the height limit per designated criteria.

17.42.120 Housing accessibility – Reasonable accommodation for disability.

A. Purpose and Applicability.

1. This section provides a procedure to request reasonable accommodation for persons with disabilities seeking equal access to housing under the Fair Housing Laws in the application of zoning laws, building codes, and other land use regulations, policies and procedures. Fair Housing Laws means "Fair Housing Amendments Act of 1988" (42 U.S.C. Section 3601, et seq.), including reasonable accommodation required by 42 U.S.C. Section 3604(f)(3)(B), and the "California Fair Employment and Housing Act" (California Government Code Section 12900, et seq.), including reasonable accommodation required specifically by California Government Code Sections 12927(c)(1) and 12955(l), as any of these statutory provisions now exist or may be amended from time to time.
2. A request for reasonable accommodation may be made by any person with a disability, his/her representative, or any business or property owner when the application of a zoning law, building code provision or other land use regulation, policy or practice acts as a barrier to fair housing opportunities. A person with a disability is a person who has a physical or mental impairment that limits or substantially limits one or more major life activities, anyone who is regarded as having such impairment or anyone who has a record of such impairment, as those terms are defined in the Fair Housing Laws.
3. A request for reasonable accommodation may include a modification or exception to the rules, standards and practices for the siting, development and use of housing or housing related facilities that would eliminate regulatory barriers and provide a person with a disability equal opportunity to housing of their choice. Requests for reasonable accommodation shall be made in the manner prescribed by this section.
4. It is the intent of this section that, notwithstanding time limits provided to perform specific functions, application review, decision making and appeals proceed expeditiously, especially where the request is time sensitive, and so as to reduce impediments to equal access to housing.

B. Application Submittal.

1. Any person with a disability may request a reasonable accommodation on a form supplied by the community development department including the following information, accompanied by a fee established by resolution of the city council:
 - a. The applicant's or representative's name, mailing address and daytime phone number;
 - b. The address of the property for which the request is being made;
 - c. The specific code section, regulation, procedure or policy of the city from which relief is sought;
 - d. A site plan or illustrative drawing showing the proposed accommodation;
 - e. An explanation of why the specified code section, regulation, procedure or policy is preventing, or will prevent, the applicant's use and enjoyment of the subject property;

- f. The basis for the claim that the Fair Housing Laws apply to the individual(s) and evidence satisfactory to the city supporting the claim, which may include a letter from a medical doctor or other licensed health care professional, a disabled license, or any other appropriate evidence;
 - g. A detailed explanation of why the accommodation is reasonable and necessary to afford the applicant an equal opportunity to use and enjoy a dwelling in the city;
 - h. Verification by the applicant that the property is the primary residence of the person(s) for whom reasonable accommodation is requested; and
 - i. Any other information required to make the findings required by subsection (D) of this section consistent with the Fair Housing Laws.
2. A request for reasonable accommodation may be filed at any time that the accommodation may be necessary to ensure equal access to housing. ~~If the project for which the request for reasonable accommodation is being made also requires a discretionary approval (including but not limited to a conditional use permit, precise development plan, etc.), then the applicant shall file the application submittal information together with the application for discretionary approval for concurrent review. The processing procedures of the discretionary permit shall govern the joint processing of both the reasonable accommodation and the discretionary permit.~~
 3. A reasonable accommodation does not affect or negate an individual's obligations to comply with other applicable regulations not at issue in the requested accommodation.
 4. If an individual needs assistance in making the request for reasonable accommodation, the city shall provide assistance to ensure that the process is accessible.
 5. Should the request for reasonable accommodation be made concurrently with a discretionary permit, then the fee for a reasonable accommodation application may be waived provided that the prescribed fee shall be paid for all other discretionary permits.
- C. Reviewing Authority.
1. Applications for reasonable accommodation shall be reviewed by the Community Development Director or designee. ~~hearing officer, if no approval is sought other than the request for reasonable accommodation. "Hearing officer" means a person designated by the city council to conduct hearings. A hearing officer shall be selected in a manner that avoids the potential for pecuniary interest or other bias. The compensation, if any, of the hearing officer shall be paid by the city and shall not be conditioned on achieving a particular outcome.~~
 2. ~~Applications for reasonable accommodation submitted for concurrent review with another discretionary land use application shall be reviewed by the authority reviewing the discretionary land use application.~~
- D. Findings. The reviewing authority shall approve the request for a reasonable accommodation if, based upon all of the evidence presented, the following findings can be made:

1. The housing, which is the subject of the request for reasonable accommodation, will be occupied by an individual with disabilities protected under Fair Housing Laws;
2. The requested accommodation is reasonable and necessary to make housing available to an individual with disabilities protected under the Fair Housing Laws;
3. The requested accommodation will not impose an undue financial or administrative burden on the city, as defined in the Fair Housing Laws and interpretive case law; and
4. The requested accommodation will not require a fundamental alteration in the nature of the city's zoning or building laws, policies and/or procedures, as defined in the Fair Housing Laws and interpretive case law. The city may consider, but is not limited to, the following factors in determining whether the requested accommodation would require a fundamental alteration in the nature of the city's zoning or building program:
 - a. Whether the requested accommodation would fundamentally alter the character of the neighborhood; and
 - ~~b. Whether the accommodation would result in a substantial increase in traffic or insufficient parking; and~~
 - b. Whether granting the requested accommodation would substantially undermine any express purpose of either the city's general plan or an applicable specific plan.

E. Decision.

1. ~~The review authority hearing officer shall consider an application, and issue a written determination within forty (40) calendar days of the date of receipt of a completed application. At least ten (10) calendar days before issuing a written determination on the application, the city shall mail notice to the applicant and any adjacent property owners that the city will be considering the application and inviting written comments on the requested accommodation.~~
2. If necessary to reach a determination on any request for reasonable accommodation, the review authority may request further information from the applicant consistent with this section, specifying in detail what information is required. In the event a request for further information is made, the applicable time period to issue a written determination shall be stayed until the applicant reasonably responds to the request.
3. ~~The review authority's written decision shall set forth the findings, any conditions of approval, notice of the right to appeal, and the right to request reasonable accommodation on the appeals process, if necessary. The decision shall be mailed to the applicant, and when the approving authority is the hearing officer to any person having provided written or verbal comment on the application.~~
4. The reasonable accommodation shall be subject to any reasonable conditions imposed on the approval that are consistent with the purposes of this section.

5. In making the approval findings in subsection (D) of this section, the review authority may approve alternative reasonable accommodations that provide an equivalent level of benefit to the applicant.
6. The written decision of the reviewing authority shall be final unless appealed in the manner set forth below.
7. While a request for reasonable accommodation is pending, all laws and regulations otherwise applicable to the property that is the subject of the request shall remain in full force and effect.
8. Where the improvements or modifications approved through a reasonable accommodation would generally require a variance, a variance shall not be required.

F. Appeals.

1. The decision on a reasonable accommodation may be appealed to the city council within ten (10) calendar days of the issuance of a written decision.
2. The appeal shall be made in writing including a statement of the grounds for appeal, and accompanied by a fee established by resolution of the city council.
3. The city council shall hear the matter and render a determination as soon as reasonably practicable, but in no event later than sixty (60) calendar days after an appeal has been filed. All determinations shall address and be based upon the same findings required to be made in the original determination from which the appeal is taken.
4. The city shall provide notice of an appeal hearing to the applicant, ~~adjacent property owners, and any other person requesting notification at least ten (10) calendar days prior to the hearing.~~ The council shall announce its findings within forty (40) calendar days of the hearing, unless good cause is found for an extension, and the decision shall be mailed to the applicant. The council's action shall be final.
5. If an individual needs assistance in filing an appeal on an adverse decision, the city shall provide assistance to ensure that the appeals process is accessible.

G. Waiver of Time Periods. Notwithstanding any provisions in this section regarding the occurrence of any action within a specified period of time, the applicant may request additional time beyond that provided for in this section or may request a continuance regarding any decision or consideration by the city of a pending appeal. Extensions of time sought by applicants shall not be considered delay on the part of the city, shall not constitute failure by the city to provide for prompt decisions on applications and shall not be a violation of any required time period set forth in this section.

H. Notice to the Public of Availability of Accommodation Process. The city shall prominently display in the public areas of the community development department at City Hall a notice advising those with disabilities or their representatives that they may request a reasonable accommodation in accordance with the procedures established in this section. City employees shall direct individuals to the display whenever they are requested to do so or reasonably believe that individuals with

disabilities or their representatives may be entitled to a reasonable accommodation.

- I. Expiration, Time Extension, Violation, Discontinuance, and Revocation.
 1. Any reasonable accommodation approved in accordance with the terms of this section shall expire within twenty-four (24) months from the effective date of approval or at an alternative time specified as a condition of approval unless:
 - a. A building permit has been issued and construction has commenced;
 - b. A certificate of occupancy has been issued;
 - c. The use is established; or
 - d. A time extension has been granted.
 2. The community development director may approve a time extension for a reasonable accommodation for good cause for a period or periods not to exceed three (3) years. An application for a time extension shall be made in writing to the community development department no less than thirty (30) days or more than ninety (90) days prior to the expiration date.
 3. Notice of the director's decision on a time extension shall be provided as specified in subsection (E)(3) of this section.
 4. Any reasonable accommodation approved in accordance with the terms of this code may be revoked if any of the conditions or terms of such reasonable accommodation are violated, or if any law or ordinance is violated in connection therewith.
 5. An accommodation is granted to an individual and shall not run with the land unless the director finds that the modification is physically integrated on the property and cannot feasibly be removed or altered. Any change in use or circumstances that negates the basis for the granting of the approval may render the reasonable accommodation null and void and/or revocable by the city, and thereafter the reasonable accommodation may be required to be removed or substantially conformed to the code if reasonably feasible.
- J. Amendments. A request for changes in conditions of approval of a reasonable accommodation, or a change to plans that would affect a condition of approval shall be treated as a new application and shall be processed in accordance with the requirements of this section. The community development director may waive the requirement for a new application and approve the changes if the changes are minor, do not involve substantial alterations or addition to the plan or the conditions of approval, and are consistent with the intent of the original approval.
