3E's of Sustainable Development dogma

<http://www.agenda21course.com/defining-agenda-21-and-how-america-has-been-made-to-accept-sustainable-development/#more-28>

(This seems to be the Sustainable Development blueprint for a United Nations directive that is counter to the U.S. Constitution. Like many more cities now recognizing the unlawful SB 54, Sanctuary Cities Act, and opting out, cities should not be seeking grant funds that apparently further an unlawful foreign directive.)

To learn more about how certain grant funds can be harmful to our city please review this brief lesson on grants at this link...

<http://www.agenda21course.com/lesson-6-grants-are-used-as-a-major-tool-to-implement-agenda-21/#more-131>

Quote from lesson 6:

First, that **Sustainable Development is the exact same thing as-a synonym for-Agenda 21**. So any time Sustainable Development is referenced, always remember that it is a substitute for the words "Agenda 21".

Secondly, through its own document the Federal Government is admitting that it is indeed, through the Challenge Grant Program, implementing Agenda 21, a United Nations directive. Remember that Agenda 21 was a treaty that was never ratified by Congress. So the **implementation of Agenda 21 is in direct violation of Article 1 Section 10 of the Constitution of the United States**, which says...

**"No State shall without the Consent of the Congress,...enter into any Agreement or Compact with another State, or with a foreign power, or engage in War, unless actually invaded, or in such imminent Danger as will not admit of delay. That means that our federal government is implementing an illegal set of actions counter to our Constitution."** (Also see Article IV, second paragraph of the U.S. Constitution.)

If the city council supports applying for the CCIUG grant funds and the funds are awarded to Hermosa Beach, it seems possible that the council will be promoting an illegal set of actions counter to our Constitution.

Respectfully,
