

# Hermosa Beach City Council

Special Event Policy Discussion &  
Study Session

## QUANTITY OF EVENTS

Does the Council wish to limit the number of total special events that can be scheduled in a year?

Does the Council wish to place a limit on the number of events based on size/category?

Does the Council desire to approve each event individually or delegate these duties to staff and the Parks and Recreation Commission?

Does the Council feel they are achieving the appropriate return on investment in regards to special events?

Does Council intend the direction provided today to serve as its definitive policy or more of an interim policy which may or should be revisited/confirmed as part of the future General Plan/Local Coastal Plan (LCP) update process?
