

IMPORTANT NOTICE

from the **CITY OF HERMOSA BEACH**

Notice of increase in annual sewer service charge effective **Jul. 1, 2018** for fiscal year 2018-2019.

Visit www.hermosabch.org for additional information from the City or contact City consultant (Jeff Cooper of NV5) at 949-585-0477.

Each year, an annual Sewer Service Charge is levied upon each parcel of real property in the City of Hermosa Beach for the overall operation, maintenance and servicing of the City's sewer system as well as the funds deemed appropriate and necessary to pay for capital improvements and reserves.

On July 1, 2018, the City's current rates will increase by the annual increase in the Consumer Price Index (CPI-W) for Urban Wage Earners and Clerical Workers in Los Angeles-Long Beach-Anaheim, Los Angeles and Orange County Area with a cap of 2%. The increase for the upcoming year is 2%. The rate increase is necessary to ensure the funding for the sewer program keeps up with cost increases for maintenance services and capital improvement projects.

The formula for the calculation of the 2017-2018 sewer service charge rates was computed by multiplying \$119.30 by the number of equivalent sewage units ("ESUs") for the current land use. For fiscal year 2018-2019, the base charge will be increased by the 2% CPI to \$121.69.

The ESU for various non-residential land uses is calculated by the following equation:

$$\text{ESU} = [\text{commercial water consumption GPD}] / 260 \text{ GPD per SFRU}$$

The charge per ESU for non-residential land uses is \$121.69/ESU for fiscal year 2018-2019.

For fiscal year 2018-2019, the sewer service charge rates with the 2% CPI increase for residential and vacant parcels are described below:
