## New eComment for City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

Laurie Cartwright submitted a new eComment.

Meeting: City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

Item: 6a) REPORT 18-0616 CONSIDERATION OF ALTERNATIVE LOCATIONS FOR THE GREENBELT INFILTRATION PROJECT (Environmental Analyst Kristy Morris)

eComment: I stand with my neighbors condemning the pending location of the Green Belt Infiltration Project, especially when there are more suitable alternate locations. To put a project such as this in the middle of a densely packed residential neighborhood where the only access is narrow streets will be a huge mistake, one that will be impossible to reverse once it has started. I strongly urge the City Council to carefully consider the tremendous impact this will have on the city as a whole and actively seek a location with less of an impact on residents, business owners, and the environment.
