## New eComment for City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

Brian Hilgers submitted a new eComment.

Meeting: City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

Item: 6a) REPORT 18-0616 CONSIDERATION OF ALTERNATIVE LOCATIONS FOR THE GREENBELT INFILTRATION PROJECT (Environmental Analyst Kristy Morris)

eComment: I am discussed that this is STILL BEING considered for Greenbelt, South Park or anywhere in HB! I challenge the statement HB adds 14% of the waste water. This is one of two largest waste-drains in LA County. It is a current river of toxins being dumped in a location which should be a historical site for HB. Please cancel consideration, this is not like a little project under the HB pier, that is like a baby's blow up pool, vs. 3 Olympic Size pools of waste from miles around. Just image what is all in this brown waste drain from S. Bay Galleria, Streets, dumpsters, parking lots miles around....Brian Hilgers STOP THIS-MOVE IT
