Subject: Water Infiltration Project

City Council,

Please have this email added to the agenda on Oct. 9th 2018.

I am writing to you all as I feel very strong that the water infiltration project should not be on the Greenbelt or in South Park. My wife and I have spent many hours researching this project as well as speaking to other community members and we do feel that Hermosa Beach should take on some aspect of the Water Infiltration Project.

We just feel that Hermosa Beach should maybe take on some smaller projects that make it more equitable across the Beach Cities. I also feel as a resident who lives within close proximity to both Greenbelt and South Park, that there has not been adequate communication from the city to the residents.

I have seen the email that Carla McCauley sent each of you and am in full agreement with her comments.

Thank you to Hany Fangary, Justin Massey and Stacey for spending some time to meet with some of us, who have had a number of questions and concerns as it relates to this project.

As a resident who has lived in Hermosa since 2005, I have become involved with a number of local organizations and truly feel there is no better place to live.

I implore you to please consider either looking at some smaller projects or move this completely somewhere outside of Hermosa Beach.

Thank You for your time.

Adam Wald
