## New eComment for City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

David Grethen submitted a new eComment.

Meeting: City Council Meeting (Closed Session - 6:00 P.M. and Regular Meeting - 7:00 P.M.)

Item: 6d) REPORT 19-0230 APPROVAL TO INVESTIGATE THE FEASIBILITY OF NORTH FRANCISCA AVENUE FOR THE HERONDO DRAIN STORM WATER INFILTRATION PROJECT (Environmental Analyst Kristy Morris)

eComment: The staff report states that prior work has identified contamination as a potential concern for feasibility of Francisca Ave as an alternate project site. However, there is no mention of contamination in the Tetra Tech proposal. It would be useful to clarify this during oral presentation to Council, e.g., whether Tetra Tech or Staff or someone else will perform this evaluation. It would also be useful during oral presentation to expand upon the identified concern about "realignment" (perhaps referring to the roadway) in order to assure a comprehensive understanding of potential challenges.
