Subject: Pictures for CCM

Hi Ann,

I have taken pics as once again the ball has been dropped. Yesterday, I called the non-emergency police re the attached pic of a Bobcat parked – to have someone from the City come out later, slowly park behind, not get out of the car...to then drive away without doing anything (well what appeared to be NO close up investigation). They sat there for about 10-15 minutes [in car] and then left. Yesterday there was no signage and just one orange post. At the end of today, not only have the construction peeps parked and dumped stuff there again, they have put up orange posts with one sign AND it clearly has the wrong dates (pictured). You can see the dates say 7-9 thru 7/12 (today is 7/17). The sign posts are from the actual site on Bayview from last week - and brought out here. THEN across the street (on 16th as well) one of the drivers of a white truck (who drives around with an orange post in his white truck and smokes (even though I asked him not to months ago, and mentioned the City was smoke-free) started putting the folded signs next to the monstrosity (pictured...what it is I do not know) but it is in between two orange posts [no signs]. What I do know is there is no appropriate signage on either of these! Bottom line: two spots for the residents are in use overnight again (and all day today) without proper documentation signage. I called non-emergency again over an hour ago and have yet to see anyone come out. And honestly in this heat, it is just downright rude for someone to smoke while they stroll back and forth to the site – not caring about the residents. I wish the City would be responsible – not only regarding this parking issue...but to tell the contractors in place about us being smoke-free (and to tell their workers) and to be mindful of the residents! This guy could be one of the contractors – I do not know...but he is constantly smoking and has been rude about it. So frustrating...

It appears that no one seems to care; yet when / if a resident is mis-parked, tickets go out right away...and that is if we can even get parking!

*So I went out and took 7 pictures to help the City see what goes...and did all I could on my end.
Please add this to the original email!
Thank you...*
