Subject: Anny:

I wish they would address slowing down traffic on Hermosa Ave. I am particularly concerned that a stop sign is needed on Hermosa Ave at 25th street. Cars come off 27th and turn south on Hermosa Ave and speed up. They don't stop for the cross walk at 25th. To be fair, they can't see people crossing because cars parked on the median block their view. This is the 3rd time I have written about this. Others have written as well. The city sends out a guy at 11:00AM on a Wednesday in November (when no cars are parked on the median) and concludes there is no problem. The city has tremendous liability. There should be an effort to slow down cars anyway. Most drivers speed while they text.

Thanks for listening,

Tom Boyle (very concerned resident)
