Council members,

I support the immediate opening of the strand to pedestrians and cyclists with social distancing and face covering requirements. These open spaces have been shown to be low risk and the ongoing closure of these spaces materially reduces the quality of life for those in our community and is creating higher-risk congestion along other running paths, such as the greenbelt. I further support the opening of our retail stores with social distancing and face covering requirements. However, off-street public parking should continue to be limited or closed so as to reduce the risk of overcrowding, particularly during the upcoming holiday weekend.

Respectfully,

Omer Salik
