**Subject:** Open Hermosa!

May 21, 2020

NOW IS THE TIME!

My hope is that our Council, will finally, vote to open this city. All of the dire predictions, based on flawed models, have proved wrong.

We know that being outside is good for our health and bad for the virus. "Safer at Home" was fear mongering. Yes, it worked, as people are seen wearing a mask while driving by themselves and exercising, overriding common sense by not getting enough oxygen.

Manhattan Beach allows walking on the Strand, but no bikes. Hermosa, nothing!

Let's get this town open! We all know how to social distance. Those who continue to be fearful will stay home.
