Item: 1. REPORT 20-0405 REVIEW OF CITY'S RESTRICTIONS OF DOWNTOWN ASSETS AND OTHER EMERGENCY MEASURES IN ANTICIPATION OF THE FOURTH OF JULY HOLIDAY WEEKEND (City Manager Suja Lowenthal)

eComment: The first time the bars were shut down, I had gotten COVID from my roommate who works at one of the "so called restaurant bars." There is just no way to enforce that all patrons wear masks when they're not drinking/eating or to enforce the "restaurants/bars" to abide by the safety protocol. Just when you think it's safe, people will put their guard down. Even with the safety guidelines, these bars still operate with larger crowds of people who remove masks more frequently to drink, and loud music/tv noise "may force customers to raise their voices — potentially spreading more airborne particles." None of these bars have ever stopped & voluntarily closed their bar/s because they were concerned for their employees and patrons. It's just about profit. How much profit is worth the lives that have been lost & will be lost? I would strongly advise that you shut down all dine in immediately before it's too late.
