**Cc:** City Clerk <cityclerk@hermosabeach.gov>

**Subject:** item 6A mask and 2K easyreader add

please receive file distribute for council meeting tonight

6A mask ordinance

the staff report and summary is correct but the actual ordinance is inconsistent and needs to be slightly revised

the governors order for wearing masks applied to those outside that are not more than 6 feet from others

please revise the draft ordinance to make it consistent with the governors order and your own staff report. this is important in order to get public compliance.

if one is running walking riding a bike outside on a cold dark day away from others one should not have to wear a mask.

lets make sense here please

2K easy reader add funded by the city council

this is a conflict of interest for you to fund such an add.

we depend on an independent press that reports on you. the easy reader is able to survive like all private papers and are struggling just like the rest of us. their employees are given the same unemployment benefits as the rest of us the business is eligible for other assistance programs like others. do not single this one out.
