Dear council and city manager.

Re: executive order 2020-09

Please! What are you thinking??.

You haven't got a handle on masks or distancing. compliance.

You haven't got a handle on twice weekly Covid antigen testing with quick <24 hour test turn around meaning you can't contact trace.

You haven't got a handle on the prohibition of group activities at beaches and parks.

Group activities at parks and beaches are prohibited but they are ok on our sidewalks!!!!??

How do you rationalize that. Getting your nails done or the latest hair-do is not a justification to put health care workers and vulnerable populations at risk.

Put first things first.

If for instance a hair stylist is asymptomatic how will you ever know she is a super spreaders until the damage is already done.

It's reckless to attract more visitors downtown under these conditions especially when we are right in the middle of a widespread surge in covid infections!!!!!!

You are throwing the health care workers who have to pick up the pieces and already under tremendous pressure physical and emotional pressure right under the bus. Bang your pots and pans to that!!! Celebrate health care workers by burying them in new infections.

And because you haven't finished the job of masks and distancing compliance, antigen testing, screening nor have you established a foundation for effective contact tracing; not only are you throwing health care workers under the bus but you are throwing vulnerable persons under that same bus.

Nor has the city stopped group activities at beaches and parks.

The environment is already unsafe for vulnerable populations and in the 6 months you have had to address these things you haven't got it done; and until you do you have no business opening anything.

It's simply outrageous and totally irresponsible that you are reopening these businesses *and bringing more people into the downtown area without attending to these matters first.*

What the hell are you thinking?

Just kill em off and pretend it's all ok?

I'm sorry but someone getting their nails done is not a justification to put people into an unsafe uncontrolled downtown environment.

Our city's Covid response is in complete disarray!!!

It's simply not safe to bring more people downtown before these shortcomings have been fully handled.
