Subject: Please add to today's council agenda in a timely manner

Dear Council and Staff Members.

It took me two days of reading and re-reading to finally find the section on what staff's proposed punishment for the unmasked. _____

In my other email, I included the reasons that this ordinance is unnecessary and outside all scientific evidence for the outdoors.

But on top of that, the punishment proposed is borderline insane. It is out of all proportion to the behavior trying to be encouraged!

\$1,000, a criminal record (which could lead to job loss or restriction) and six months in jail?

Please don't approve this unnecessary ordinance but also don't ruin people's entire lives over it if you choose to disregard the science.

SECTION 4. In addition to enforcement remedies available to the City as provided in the Hermosa Beach Municipal Code, emergency executive orders issued by the City Manager/Director of Emergency Services and confirmed by City Council, and emergency ordinances, orders and resolutions adopted by the City Council shall be enforceable by way of:

A. Imposing an administrative citation pursuant to HBMC Chapter 1.10.

B. Prosecuting a misdemeanor, punishable by a fine of not to exceed one thousand (\$1,000) dollars or by imprisonment for not to exceed six months, or both.
