NO Race Theory in our Hermosa Beach Schools

6.22.2021

Please STOP teaching any of this new 'Race Theory' in our schools. The voting public sees that you City and School Officials are just 'Virtue Signaling.' You are pandering for liberal votes, trying to make a big splash with your ridiculous opinions.

You may be sincere in your desire to help and serve but sadly and tragically you are naive. You don't realize that your endorsement of the latest perverse socialist ideas - Race Theory - is designed to split and divide the city and country. You don't realize that there is a Propaganda War being waged for the minds of our children in our schools. As Marx and Lenin wrote, 'give me the child and I will mold you the man.'

Your endorsement of Race theory is just another step, another Marxist tactic to destroy civil society by demoralizing its schools with confusing and volatile social issues.

This propaganda battle started in the 1960s with the expulsion of prayer, God and Christian morality from our schools. To paraphrase Lenin, the 'agents of change' (teachers, administrators) will undermine and subvert their own society and institutions in the belief that they are creating a better world. But you are really setting the groundwork for an immoral tyranny.

Lenin called these agents of change, (teachers, administrators) 'Useful Idiots.' Why 'useful idiots?' Because after they have helped demoralize their own society and culture, when hostility and crime are rampant, when confusion over even basic morality reigns, when children are taught that there is no right or wrong, that every degenerate behavior is OK, when even the Bible's wisdom is ridiculed and rejected, when the courts and police no longer serve society, people will beg for relief, for order. That is when a Socialist / Communist tyranny will arrive. Then we will all be guaranteed the equal sharing of Misery. Remember, the road to hell is paved with good intentions.

Race Theory, is just like so many of the deviant memes that have come before - Turn on Tune in Drop Out. Don't Trust anyone over 30. Hey Hey Ho Ho Make love not War. Men are Toxic. Weed is harmless. Women are the Superior Sex. Women are underpaid. Occupy Wall Street. Me Too. Sexism. BLM. Antifa. Homophobia. Transgenderism. Islamophobia. Racism. What will you accuse your country of next ??? These 'non issues' are amped up by Marxist Change Agents who have infiltrated, and subverted our institutions. By supporting this latest accusation and insult to our culture you are doing the work of Marxist Propagandists and you don't realize it.

Supporting 'Race Theory' makes City Council and our schools just another source of demoralizing propaganda like CNN, MSNBC, ABC, CBS, NBC pitting people against each other, encouraging people to reject centuries of wisdom and morality.

You are NOT noble, brave or dedicated. The City Council, School Board, School authorities and teachers who enable, approve and encourage Race studies are all Useful Idiots. You are

destroying our country. You are being 'played' and in turn you are manipulating the minds of our children with your twisted racist history and beliefs.

City Council should be working to maintain our parks, streets, encouraging small businesses. Why are you wasting time and energy on 'Political Endorsements?'

No one cares what your 'position or stance' is regarding national issues. Stop the grandstanding. Stop thumping yourselves on the back for your Wokeness. There has been no referendum on Race issues in Hermosa Beach. You don't know what people in this town really believe or want. You should be - teaching children basic subjects that will enable them to support themselves, subjects like math, science, English, history, business, accounting, Skilled Trades, NOT Race.

They say Hermosa Schools are among the best in the State. But that's not saying much because California schools STINK and rank at the bottom for the whole country. California ranks down with Mississippi, 48 out of 50. Our schools Stink because of people like you wasting time and money and effort on political nonsense.

You have been tricked into thinking that you are doing 'good,' when in fact you will be teaching children (at their most formative ages) to distrust and dispise each other.

STOP Race education in our schools. STOP taking political stands on behalf of the whole city. Mind your own business.
